Stage 1 of the project, which involved the relocation of the iconic J class steam locomotive from Warragul to Noojee and Stage 2, the building of the station and platform to house the heritage centre, has been completed!

Ticket valid for first class support!

The centre, which opened on 22 March 2014, is becoming a beacon for history buffs, train enthusiasts, tourists, local residents and their relatives and friends. We believe that the centre will become a regional destination of historical and cultural significance, as well as a focal point where our community can discover how Noojee’s character and identity was formed.
